AREA NETWORKS

WHO WE ARE: Area Networks is a full service Cloud Computing Managed Service and Solutions Provider, specializing in Virtualization and Networking. We provide cloud computing services, and develop customized business applications for our customers. We manage complex system services, and utilize the latest technologies from VMware, Microsoft, Hewlett-Packard & Cisco. Let us help you make your IT environment more stable and secure, and help your company become more efficient and profitable. Let us help you get back to the business of running your business.

WHAT WE DO: Area Networks focuses on long term customer satisfaction. We respond quickly to your requests, and we are persistent with problem solving. Our experienced professional staff can help you with your Information Technology issues:

- *VIRTUALIZATION FOR SERVER CONSOLIDATION & POWER REDUCTION***:** We can take your energy inefficient servers, and consolidate them into one smaller, more powerful and efficient server that will pay for itself in months, not years.
- *VIRTUALIZATION FOR DISASTER AVOIDANCE & BUSINESS CONTINUITY***:** We can take snap shots of your physical server, and make virtual copies as a disaster recovery option.
- *EMAIL SECURITY & ARCHIVING***:** We can block SPAM, and prevent Spyware and Malware from getting into your email system.
- *INTERNET SECURITY & FIREWALL:* We can prevent open access to your network, and we can filter website access.
- *LAN & WAN NETWORKING SERVICES:* We can speed up your overall network performance, using the latest network monitoring tools for troubleshooting..

CONTACT US: Please email **sales@areanetworks.com** for additional information, a complimentary consultation, or a tour of our state-of-the-art data center.
